

Pre-Approved Comfort Aids

Test Takers **DO NOT** need to request testing accommodations for the specific items indicated below. However, if any other accommodations are needed that are **NOT** listed below, the formal accommodation request process must be followed. The Test Center Administrator must complete a visual inspection of all approved personal items prior to testing.

If an approved medical device makes any alert noises, it must be able to be silenced. If the test taker is not able to silence their medical device, they should be directed back to PSI or their exam client to request an accommodation.
